			Yellow Zinc Plated								
Available G	Grades and Coatings	A2	A2 Stainless Steel								
		A4	A4 Stainless Steel								
Fitting Tool	Pozi Head Drive P22 o										
	Screwdriver										

Thread Calculations

The length of the wood screw is measured from the head for the whole length of the screw. The reason for this is that the screw is normally countersunk into the wood allowing for a flush finish. The head portion is level with the finished surface

Chart Information

The green dots represent that these sizes are considered standard and normally have a stock holding on the shelf. The blue dots identify, non preferred items that can typically be ordered or have a small stock holding. The white spaced represent sizes that are non standard and therefor require specify ordering or may not be available at all. You can contact the sales team and they can advise if there is a likelihood of these sizes be sourced.
